

## PRE-TRAVEL ASSESSMENT

Please complete this form and take with you to your initial travel appointment

We recommend seeking advice at least **8 weeks before travel**. For longer term/gap year travellers, please note that an adequate programme of immunization can take up to 6 months. Some immunizations are also very expensive. See attached for price list.

Name..... Date of Birth.....

Telephone No..... Patient No (*office use*).....

Departure Date..... Length of stay.....

Destination(s) (please print) *N.B. Requirements can vary within a country. Please be as precise as you can about exact areas to be visited. If visiting more than one country, please list in order of visits.*

.....  
.....

Nature of trip (*e.g. business, holiday, hotels, staying/working with locals*)

.....

Risk activities (*e.g. working with animals, health workers*)

.....

Medical history. Do you suffer from any of the following? (*Please tick*)

Renal problems       Diabetes       Epilepsy       Asthma   
Any recent surgery/illness    Yes       No

Current medication if any.....

.....

If travelling by air, will you be carrying needles or syringes?    Yes       No   
(Women only) Are you pregnant or planning a pregnancy?    Yes       No

Please list any known allergies?.....

If you have had travel vaccinations elsewhere, we may not have a record of these. Please bring any available information (inc. dates) with you to the appointment.

Please note that all travel vaccinations must be paid for in advance. On the day of your appointment the nurse will advise you of any charges due. These must be paid prior to vaccination. You will be issued with a receipt, which must be shown to the nurse before any treatment is administered.
